

Information about Conflict Materials

WEY does not engage in the direct importation of so-called "conflict minerals" such as columbite-tantalite, cassiterite, gold, wolframite and their derivatives.

According to our current knowledge, circuit boards and tin alloys from our vendors do not contain any conflict material originating in the Democratic Republic of the Congo or in Angola, Burundi, Republic of the Congo, Ruanda, Zambia, Sudan, Tanzania, Uganda and the Central African Republic.

Our components are obtained exclusively from reputable manufacturers and we assume that they contain no "conflict materials". However, we cannot give any guarantee in this regard.
