

REACH Declaration

REACH (**R**egistration, **E**valuation, and **A**uthorisation of **C**hemicals) is the European Community Regulation on chemicals and their safe use.

WEY Elektronik AG is a manufacturer of electronic products and a so-called “downstream user” in terms of the REACH regulations. The goods and products supplied by WEY Elektronik AG are solely of a non-chemical nature. Moreover, and under normal and reasonably foreseeable circumstances, our goods do not release any chemical substances. Hence WEY Elektronik AG is under no obligation to either register or provide **Safety Data Sheets (SDS)**.

Nonetheless, in order to ensure product safety and high supply chain security, WEY Elektronik AG complies with reporting requirements in accordance with Article 33 of the REACH Regulation:

- We remain in close contact with our suppliers of relevant raw materials used in the manufacturing processes of our products. We receive certified information regarding SVHC (**S**ubstances of **V**ery **H**igh **C**oncern) which exceed a concentration of > 0.1% in the raw materials.
- Our EU suppliers of goods used in relevant quantities in our products are obligated to inform us proactively and without delay in case the supplied goods contain > 0.1% concentration of a SVHC listed substance. In turn, our customers will be promptly informed if we receive information or obtain knowledge that the 0.1% threshold for SVHC listed substances has been surpassed.
- From today's perspective and in light of information from our suppliers, it is not expected that WEY Elektronik AG products contain SVHC listed substances above 0.1% concentration.
