

USB DESKSWITCH III

Workplace Optimization

The USB Deskswitch III is a compact device which simplifies IT infrastructure and operations in a variety of settings. Due to its small size, it is portable and ideal for home and small office environments. Fully configurable hot-keys and mouse switching capabilities ensure user flexibility.

Control up to 4 workstations with a single keyboard and mouse.

Description

The USB Deskswitch III allows the user to manage up to four computers and screens using only one keyboard and mouse. Workstation selection is controlled either by hot key commands or by mouse switching functionality. In addition, up to 16 computers/workstations can be controlled with a single keyboard and mouse in combination with several desk switches. The USB Deskswitch III also has a transparent USB 3.0 port, which can be switched to a workstation. The USB interface is compliant with USB 3.0 SuperSpeed specifications.

Technical Information

Dimensions	
Size W/D/H (mm)	135x80x30
Weight (g)	460
Electrical Characteristics	
Power Supply	5 VDC from USB Port
Power Consumption	min 1.6 Watt, max 5 Watt
MTBF	200,000 hours
Interfaces/Connectors	
Source Ports	4 x USB 3.0 Type B SuperSpeed (maximum cable length = 3m)
Keyboard/Mouse Ports	2 x USB 2.0 Type A Full Speed (maximum cable length = 5m)
Transparent Port	1 x USB 3.0 Type A SuperSpeed (maximum cable length = 3m)
USB (Service Port)	1 x USB 2.0 Type Mini-B 5 - Pin High-Speed
Power Port	1x Barrel 3.5mm 5 VDC/3A 15Watt
Operating Conditions	
Operating temperature:	8 – 40 °C
Storage temperature:	0 – 60 °C
Operating location:	Indoor use
Relative humidity:	45 – 85 % non-condensing
Operating altitude:	Max. 2000 m
