WORKPLACE OPTIMIZATION

smartSCALE

smartSCALE offers a smart solution for smaller, less complex set-ups. This video wall system gives users the option of working interactively with our smartVISUAL system. The smartVISUAL video wall system makes it possible to arrange information sources' windows across a near-infinite canvas (one-pixel space) using a predefined number of preset keys. You can also establish connectivity for interactive work with an information system using the preset keys or via mouse switching. It is fully scalable and can be upgraded to a full WDP MX solution.

Benefits of the smartSCALE Solution:

- Optimal user experience
- Immediate source selection and layout changes
- Ability to interact with multiple sources on any screen
- Maximum IT security
- One keyboard and one mouse for instant, secure access to any source
- Peerless resilience and redundancy
- Integration of third-party systems
- Investment protection with scalability to a full WDP MX solution

Technical Features of the smartSCALE Solution:

- Standard keyboard/mouse
- Control via shortcut
- Presets
- Encryption
- Internal event handling
- Public video wall
- Mouse switching
- Camera and TV (FFmpeg) sources
